## IT'S TRUE, TEXANS LOVE TO TRAVEL!

By Tere Mayne, VP Marketing

### *A Look at Our 2009-10 Ski Season*

The Texas Ski Council Marketing Survey for the 2009-10 Ski Season has been completed and sent to about 200 industry partners, including ski areas, lodging properties, tour operators, airlines and ground transportation companies. Even though our numbers were down from the prior ski season, the chart below shows that 1744 participants from the TSC member clubs generated 8,446 skier days, 11,230 pillow nights, and \$2,859,639 in revenues during the past ski season. Not bad for a "down" economy! These numbers do include non-ski trips, pre-trip and post-trip numbers when supplied.

The clubs reported a struggle maintaining membership numbers and selling their trips this past ski season, and it reflects in their trip participation, as their overall numbers were down almost 13% from the prior year. While 54.8% of our members participated in TSC trips this past year, a significant number of members attended 31

club trips to 19 additional destinations including some non-skiing locations. That club participation led to a decline in TSC-sponsored trips for the first time in years.

As you can see from the Destination by Pillow Nights chart above, Colorado is still the leader in pillow nights with 52%. While the TSC had 2 successful trips to Breckenridge and Winter Park, the clubs also sponsored a number of trips to the Colorado ski resorts. Our Summer Expedition trip to Panama came in second at 11% of the pillows, which would explain why there was more money spent on daily excursion trips than foreign extension trips. And it was tie for third place, with 7% of the pillow nights for the TSC Winter Shootout trip to Mt. Bachelor and several club trips to various Utah resorts.

Our 2010-11 ski-season is off to a great start as our lodging numbers have increased over last year. The Texas Ski Council will have as its ski destinations: Breckenridge, Beaver Creek, Bad Gastein Austria, Crested Butte and Snowbird, along with a summer trip to cruise the waters off Alaska. Following our trip to Snowbird, we will be looking forward to seeing all of our Industry friends, along with the Club Delegates and Guests in Houston April 15-17, 2011. We will present our annual SkiBidFest meeting where we will decide our 2011-12 TSC trips. The Houston clubs are excited to host our meeting again.

I personally want to thank all the member clubs of the TSC for participating in this survey. Without your data, such an independent look at the TSC's 2009-10 Ski Season would have been impossible.

## A Message From Our President by Cheryl Mann

I write this while at the National Ski Council Federation annual meeting in Snowmass, Colorado. The National Ski Council Federation is an organization founded in 1998. The Texas Ski Council was one of the founding councils. In attendance at this meeting are twenty-nine councils from across the United States and numerous industry partners. A sample of the meeting topics include the 1) Partnership between Wholesaler and Resorts in the Bidding Process, 2) Bid Ethics in Relationship to Participation at Council functions, 3) How to Pick a Tour Operator, 4) Reduction of Numbers and Altering of Price in Relationship to Lower than Anticipated Trip Participation, 5) How to Increase and Succeed with Building Membership and Streamlining, and 6) Socially-enabled and Tech-Savvy Social Media Technology: How to Use it to Grow and Market Your Club. A copy of the meeting minutes and presentations will be forwarded to the delegates so watch for them and bring your questions or comments to our December delegates meeting.

In August, we had a two-day delegate's meeting in Lubbock. Thanks to the Twisters for their hospitality. We spent a great deal of time talking about the issues being faced by clubs cur-

rently and I am hoping we were able to brainstorm some good ideas for some of you. The board will continue to look at your marketing support requests, clubs' insurance needs and web page requirements. The council board desires to be innovative in helping the clubs and welcome each club's thoughts, ideas and suggestions.

We have some fantastic council trips planned this year and many of the clubs have some great club trips planned. Most clubs have reciprocity clauses in their rules so don't limit your skiing options to your club or the council trips. After all, we are about getting on the mountains and having great experiences!!!! I hope to see all of you on the trips this year. Think SNOW!!

## Snowbird, UT — TSC Final Showdown — March 12 - 19, 2011

*By Cindy Moore, VP Final Showdown*

Are you ready for a party trip? We just got a local beer sponsor (Squatter's) which will help make this the party ski trip of the year! What about those pesky Utah liquor laws? As of July 2009 the "private club" law has been repealed. "Memberships" are a thing of the past! I am trying to put together a TSC optional wine tasting event you won't want to miss. We will also be celebrating Saint Patrick's Day there.

What about the spring skiing? Do you know what the main justification for Utah's claim to the "Greatest Snow on Earth?" It is Snowbird, Utah, where the 2010 ski season was extended to mid-June due to the fabulous late spring dumps of snow! The legendary dry powder is said to be due to the salt content in the area. A mecca for skiers, snowboarders and snow loving families alike, Snowbird offers over 2500 acres of varied skiing terrain with one of Utah's largest vertical drops - 3240'. Snowbird enjoys a lift-served skiing connection to its neighbor Alta, and the two resorts offer a combined 4700 skiable acres, among the largest skiable terrains in the USA. They also boast the only ski tunnel with a moving sidewalk in the U.S.! This tunnel connects Peruvian Gulch with Mineral Basin. You then ski through Mineral Basin and use the Baldy Express lift to reach Alta. Not only is there a lot of challenging terrain, but there are numerous blues and easy greens available for your skiing and boarding pleasure.

Do you know someone who has always wanted to learn to ski, but hasn't yet? It is time to take the plunge at Snowbird. Snowbird is providing a three day adult complimentary learn to ski or ride program! This will be exclusively for true "never evers" and the number of places available is limited at 10% of the overall TSC attendance. Two 2-hour lessons per day, lift tickets and rental equipment are included.

Snowbird is conveniently located just 29 miles from Salt Lake International Airport which means you can be skiing within an hour of gathering your luggage at the airport! Everything

at the resort - lodging, restaurants, shops, skiing, and other activities - is within easy walking distance. There is also night skiing on a green slope next to Cliff Lodge which is free for their guests. Our TSC headquarters, the luxurious Cliff Lodge, provides SKI IN-SKI OUT convenience with first class amenities including the spectacular rooftop Spa and pool, as well as three distinctive restaurants and two lounge bars. State licensed child and infant care facilities are also available. The Cliff Spa features twenty four private treatment rooms, an open-air rooftop lap pool and giant whirlpool, aerobics and weight training rooms, massage, herbal wrap, facial treatments and a full-service women's and men's styling salon. Cliff Lodge amenities include: 2 heated pools, saunas, steam room, ice skating rink, games room, room service, bellman and valet service, nursery/children's center, retail shops, 4 restaurants, 2 lounges, laundry facilities, ski school/ticket office, ski rental and ski check and a business center. In addition to all the usual hotel amenities each room is equipped with a small refrigerator as well as a blow dryer, iron, free wi-fi, a safe, a lighted, magnified makeup mirror in the bathroom, a humidifier, a dream machine clock radio, and countertops made of beautiful, natural marble. The ski locker area on level 1 provides every room with 4 pairs of boot dryers. There is a FREE washer and dryer on every floor. There is a liquor store (with state mandated prices) within easy walking distance.

So you have kids that are out for spring break and want to ski? I have more good news! Children 12 years and younger will receive complimentary "Kids Ski FREE" lift tickets for Snowbird for the same number of days as their parent(s) or guardian(s) purchase! Kids 12 and under also stay FREE in their parent's room! Snowbird is also considering making this a TSC Youth Foundation trip, but as of this writing no decision has been made.

So, if you enjoy skiing on powder instead of slush, in mild climates instead of getting frost bite, and a good party with good friends, this fabulous spring trip is for you! For important updates, go to the final showdown article on the TSC website at <http://texas-ski.org/>.

## TSC Linked Partner Program

This year the TSC launched its Linked Partner Program and would like to WELCOME all the Industry Partners that have "Linked" to the TSC Website. The program was started as a way to provide an easy way or TSC members to connect to our Industry Partners through the TSC website. In addition to a logo link, a Linked Partner is also provided with current information on TSC officers and key club officers periodically. For Information on participating in the program, an industry partner can go to the TSC website at [www.texas-ski.org](http://www.texas-ski.org).
